Subject: Another spill

When does it become exhausting to hear of another sewage spill as the slap on the wrist to TC Water has no effect? I certainly hope right now.

No body in Tega Cay or on Lake Wylie deserves to not have a clean lake to fish, swim or boat. People paid a hefty price to live here not to have their homes devalued because TC Water cannot fix it's problems.

There have been numerous rate increases over the years, under the auspices that repairs needed to be made. Does this seem repaired to you when yet another spill occurs on Monday, 5/6/13 at Lift Station 3 and Waste Water Treatment Plant #2.

Rain continues as it is spring and we need it to fill our reservoirs, but at this point it makes citizens here more nervous than anything else seeing the unsanitary results.

Again, enough already. It would greatly appreciated that action be taken. Real action.

Thank you
Laura Latimer
